

NAVAJOS NEED NOT MISSIONARIES OR EDUCATION BUT MUCH WATER

Professor W. K. Gregory of Yale University, Returns After Spending Summer Prospecting for Underflow.

HAS HIGH PRAISE FOR SUPERVISOR ROBINSON

Assistant supervisor of Indian Reservation Service W. K. Gregory is in the city today to consult with Supervisor H. F. Robinson after a summer spent in the service of the Indians on the Navajo reservation. Dr. Gregory is professor of geology at Yale university, and was loaned by the United geological survey to the Indian department.

He has been engaged for several summers in developing water in the Indians' territory, which is mainly given over to grazing. Incidentally he has been preparing the first geological map of the country, a vast empire whose mineral resources have never been explored.

Dr. Gregory is the first geologist to make a study of the region. A general reconnaissance points it to bear out the general geological theories concerning the contiguous areas upon which investigations have been made and in itself the Navajo reservation presents many interesting geological problems.

The scenery throughout the reservation, Dr. Gregory declares to rank with the most interesting in the world. Because of its remoteness, very few people are familiar with what lies within the boundaries of the Indian country. The Canyon de Cholla is pretty well known out of comparison with places in the interior.

The Indian service of the federal government seems to be concentrating its attention upon the Navajos in New Mexico and Arizona," said Dr. Gregory today, "and they are waking up to the vast extent of the reservations and the immense problems for bettering the Indians that still remain unsolved. At this stage of the game, the Indians need, instead of missionaries and doctresses of education, good and sure water for their flocks. The region is essentially a stock raising country. We are seeking permanent water supplies not for agriculture, but for stock."

"Our first consideration has been the needs of the Indians in this respect. We have refrained from outfitting extensive storage reservoirs, that might be shown enough, but would not answer the needs at hand. Water is needed at scattered places. We must make shallow wells, from which the water may be raised in buckets, or artesian flows. Windmills and expensive pumping plants requiring the constant attention of white men would not be practicable."

We have put down a well and installed windmill in Keam's canyon in Arizona, and we have three drilling outfits prospecting for water. Derricks are being built at Gallup.

"In this work I am acting as aide to Mr. Robertson. The public generally should know more of his work and his sympathetic treatment of the Navajos. He has approached the matter of dealing with their actual wants from the right side, and is putting in improvements at little cost to the government that are helping them in the best possible way."

On this trip Dr. Gregory visited the Seven Lakes oil fields and was impressed with the activities and chances for big strike there. Kirk L. Bryan, a son of H. W. D. Bryan of this city, is his assistant in geology at Yale, and according to the eminent scientist is a very popular man and a recognized leader at the eastern university. Dr. Gregory is himself a western man, and spoke highly of the initiative displayed by western boys at the eastern university, notably of the success achieved by Lawrence T. Lee of this city in his studies at Yale.

WOMAN IN BUGGY IS STRUCK BY STREET CAR

Mrs. George Tafoya of Barcellos was badly jarred but not seriously injured in a collision with a street car on First street between Central and Tierra at 10 o'clock this morning. She was driving alone in a buggy and attempted to cross the track when the car struck the side of the buggy and threw her onto the tender.

Dr. C. A. Frank was summoned but the woman protested that she was not seriously injured and refused to be examined. She complained of bruises upon her left arm and side. She has been placed in a down town rooming house for the day to rest and recuperate. Tafoya is employed in the wheel shop in the local Santa Fe machine shop.

PLUMBERS' EXAMINATION.

The first regular plumbers examination under the new plumbing ordinance, No. 409, will be held on the afternoon of the 5th and 6th of September, 1911. All who expect to do plumbing in the city of Albuquerque after the 5th of this month will have to have a license showing that they are duly qualified. Plumbers will be at the Central high school building to make their applications for examination and begin the first afternoon's work.

SWIPE CIGARS BY SANTA FE EMPLOYER THOUSANDS AND SOLD THEM AT LOW PRICES

BROUGHT FOREIGN BLANKET MAKERS IS CHARGE

J. S. Candelario Is Sued for \$3,000 by Government on Charge of Using Alien Labor in His Curio Business.

By Evening Herald A. P. Leased Wire

Santa Fe, N. M., Sept. 2.—The United States through U. S. Attorney David J. Leahy of Las Vegas, today filed in the federal court at Santa Fe a suit against Jesus S. Candelario, a local curio dealer, who is believed to be unique and the first suit for the violation of the alien labor contract law ever brought in this city. Candelario is charged with importing Jose Blanque, Servilio Blanque and Jose Canfield from Mexico to weave blankets for him during the past seven months and to have furnished the men transportation to come to Santa Fe. The United States ask for three thousand dollars damages.

A systematic scheme for robbing the New Mexico cigar company since on central avenue of choice cigars, cigarettes, pipes and smoking tobacco in wholesale lots, was unearthed last night when James Mendes, either a half Cuban or negro bootblack, who fell for cleverly concocted scheme.

ADmits GUILT AND IS HELD TO GRAND JURY

Mendes, Negro Bootblack, Who Fell for Cleverly Concocted Scheme.

By Evening Herald A. P. Leased Wire

Santa Fe, N. M., Sept. 2.—A suit against James Mendes, Negro Boot-

black, who fell for cleverly concocted scheme.

Mendes was taken into custody at 8:30 last night by Lieutenant Alex Jordan, who had been a silent witness to a transaction between the bootblack and a go-between, acting for the police.

The go-between had framed it up with Mendes to purchase a bunch of cigars and the meeting place had been arranged for last night at Mendes' home, 411 North Arno street.

Mendes and the go-between met by prearrangement. Mendes handed the go-between the cigars, a dozen boxes of two for 25 in a salt case and a half dozen boxes tied up in another package. Mendes received in return two marked five dollar bills and eight dollars in silver. After the money had been passed and the go-between was marching off with the cigars, Police Officer Jordan, in citizen's clothes, drew on both men and took them to the police station. They were placed in separate cells and the go-between was released. Mendes being ignorant of this part of the transaction. In fact, Mendes does not yet know that he was duped. He was arraigned before Justice of the Peace George R. Craig today and held to the grand jury. Being unable to furnish bail he was sent to the county jail. Mendes had previously confessed his misdeeds to Chief McMillin and the preliminary was quite an informal affair.

Mendes is well known to frequenters of the New Mexico cigar store and pool hall. He is an expert shoe shiner and said today in court that he received \$1.50 per week as wages and gathered in a few dimes blacking boots. Mendes was arrested here once before for beating up a negro woman.

At that time he went under the name of James McFarland. From papers found on his person when arrested last night, it is believed Mendes has quite an informal affair.
